RESIDENTIAL LEASE AGREEMENT

RESIDENTIAL LEASE AGREEMENT

This Residential Lease Agreement is made on March 1, 2025, between Roe Holdings, LLC, a California limited liability company ("Landlord"), and Jane Doe ("Tenant"), for Apartment 4 at 100 Sample Way, Oakland, California 94600 (the "Premises").

1. Term

The term begins March 1, 2025 and ends February 28, 2026, and continues month to month after that unless either party gives written notice.

2. Rent

Tenant pays rent of \$2,150 per month, due on the first day of each month, by bank transfer to the account Landlord names in writing.

3. Security Deposit

Tenant has paid a security deposit of \$3,200. Landlord holds and returns the deposit as Civil Code section 1950.5 provides.

4. Use

The Premises are for residential use by Tenant only.

12. Repairs

Landlord shall keep the premises in a condition fit for occupancy and shall make all repairs needed to keep the roof, plumbing, heating and walls in good working order, within a reasonable time after written notice from Tenant.

13. Notices

Notices to Landlord go to the property manager by email at manager@roe-holdings.example or by mail to Roe Holdings, LLC, 200 Example Plaza, Suite 10, Oakland, California 94600.

14. Entire Agreement

This Lease is the whole agreement between the parties about the Premises. Any change must be in writing and signed by both parties.

LANDLORD: Roe Holdings, LLC By: _____ Morgan Roe, Managing Member

TENANT: _____ Jane Doe

EXAMPLE AIR TESTING CO. — MOLD INSPECTION REPORT

EXAMPLE AIR TESTING CO. MOLD INSPECTION REPORT

Property: 100 Sample Way, Apt. 4, Oakland, CA
Client: Roe Holdings, LLC
Date of inspection: March 3, 2026
Inspector: R. Sample, Certified Mold Inspector

Findings

Bathroom ceiling: visible growth, about 6 square feet.
Bedroom wall shared with bathroom: visible growth,
about 4 square feet; moisture reading 38 percent.
Air sample, bathroom: 14,200 spores per cubic meter.
Air sample, bedroom: 9,800 spores per cubic meter.
Outdoor control sample: 1,100 spores per cubic meter.

Conclusion

Indoor spore counts exceed the outdoor control. The
source is an active leak above the bathroom ceiling.
Repair the leak, then remove affected drywall.

Report delivered to client March 3, 2026.

EMAIL CORRESPONDENCE: WATER LEAK, APARTMENT 4

EMAIL CORRESPONDENCE: WATER LEAK, APARTMENT 4

From: Jane Doe <jane.doe@example.com>

To: manager@roe-holdings.example Date: November 18, 2025, 7:42 a.m. Subject: Water leak in Apartment 4

Water is coming through the bathroom ceiling of Apartment 4 this morning. It has soaked the bath mat and is dripping near the light fixture. Please send someone today. I am home all day.

From: Property Manager <manager@roe-holdings.example>

To: Jane Doe Date: November 19, 2025, 4:15 p.m. Subject: RE: Water leak in Apartment 4

Thanks for letting us know. Our plumber can look at it when he is next in the building.

From: Jane Doe <jane.doe@example.com>

To: manager@roe-holdings.example Date: January 12, 2026, 9:03 p.m. Subject: RE: Water leak in Apartment 4

No one has come. The leak continues every time the unit upstairs runs water. There is now black mold on the bathroom ceiling and on the bedroom wall. Please repair the leak as paragraph 12 of the lease requires.
